

INTERNSHIP PROGRAM

All year round, ACCADEMIA ITALIANA offers the opportunity of work experience in Salerno or in Naples, participating in business activities and practicing Italian skills in real-life situations through unpaid internship experiences in Italian companies or/and with professionals.

The **INTERNSHIP PROGRAM IN SALERNO** is designed to provide students with real work experience.

The program includes a LANGUAGE PREPARATION COURSE and an unpaid internship with accurately selected Italian companies. Placements are made on a case-by-case basis, influenced by previous work experience, education and level of Italian and can be found in a large variety of fields:

- Tourism: hotels, information points, travel agencies, language schools
- Restaurants, pizzerias and bakeries
- Sales employee
- Import
- Export trade

- Textile and Leather: clothes manufacturing, dressmaking workshops
- Arts & Crafts: ceramics, terracotta, sculpture
- Restoration: workshops for wood, painting and stones
- Professional offices: architects, engineers, lawyers
- Social/intercultural (master, social worker).

We assist students in selecting the internship company according to curriculum vitae and interests. We arrange meetings with the internship coordinator to plan the work experience.

We assist students in obtaining a permit of stay and to have contact agreement with the selected company. We monitor internship experience together with the internship company.

During the internship experience, students are informed of insurance which covers workplace accidents (at an extra cost).

At the end of your internship program students receive a certificate of attendance stating the Italian proficiency and the acquired internship experience.
